DEQSTER Core Trolley 32

20-CT32

Overview

CORE TROLLEY CT32 is the reliable charging and storage solution built for daily school use. Made from durable powder-coated metal, it holds and charges up to 32 laptops or tablets, including iPad with protective cases. Its quiet, maintenance-free operation and integrated cable management ensure effortless organization, while multiple safety systems protect against overloads and short circuits. With a 270° front door opening, lockable compartments, and compact design, CT32 makes device management simple, safe, and efficient.
