DEQSTER Rugged Case Neo

40-3220

Overview

The Rugged Case Neo offers tailored, all-around protection for the MacBook Neo in demanding school and university environments. Thanks to its robust design certified to the military testing standard MIL-STD-810H, it reliably safeguards the device against drops, impacts, and scratches, while keeping all ports fully accessible. The completely transparent top and bottom shells preserve the original design and allow for effortless scanning of barcodes or asset tags. Integrated cooling vents on the bottom prevent overheating during intense use, and rubberized non-slip feet ensure a secure stand on any desk. The ideal, durable protective solution for students and teachers alike!

Highlights

• Exclusive All-Around Protection: Specially and exclusively developed protective design for the MacBook Neo, reliably safeguarding it against drops, impacts, and scratches.
• MIL-STD-810H Certified
• 100% Transparent Design: The crystal-clear top and bottom shells allow the device's design to shine through, enabling easy scanning of IT asset barcodes and inventory tags.
• Perfect Fit: All ports, connectors, and buttons of the MacBook Neo remain fully accessible without restrictions.
• Secure Stand: Equipped with non-slip rubber feet to ensure a stable working surface on any school or campus desk.
• Ideal for Education: The perfect, durable, and management-friendly protective solution for schools and universities.
