DEQSTER Charging Trolley KT20C

10-KT20

Overview

The KT Series Charging Trolleys (2nd Gen.) represent compact, mobile, and efficient charging solutions for everyday school life. Designed for up to 10 iPads or tablets, the KT10C is ideal for small classes and flexible learning environments. It combines a lightweight design with smart charging and ventilation technology: temperature-controlled fans ensure quiet operation, while USB-C ports with LED indicators clearly display the charging status. Complete with integrated storage space, lockable casters, and an energy-saving timer control, the KT10C keeps devices secure, cool, and ready for class at any time, anywhere.
For classrooms with higher demands, the KT16S and KT20C models expand the concept to 16 and 20 tablets respectively, turning device management into mobile efficiency. They charge devices securely and in a space-saving manner, with the KT16S additionally allowing for synchronization for classroom and IT management. Featuring intelligent ventilation, an energy-saving timer, and a lockable housing on casters, both trolleys combine security, flexibility, and quiet operation—making them true mobile classrooms.

Highlights

- Holds up to 16 or 20 devices
- charging and syncing (KT16S)
- integrated ventilation and timer
- compartments for laptop and Apple TV
- robust lockable housing
- easy transport with wheels
- quiet and energy-efficient operation

Compatibility

Device Type	Apple iPads

Key Specs

Color	Black
Materials	Polypropylene, Ethylene vinyl acetate, Polyurethan (PU)
Dimension in mm	665 x 491 x 342
Item weight net	13.75
Item weight gross	16.25
Functions	Charge, Storage, Transport/Mobility, Protective fuse
Certifications	CE, RoHS
Number of Storable Devices	20
Power Specs	90-264 V; 50/60 Hz; max. 3A pro Port
Ventilation	smart ventilation system
Connections	USB-C
Locking System	4 snap locks (optionally lockable with padlock)
Lockable with padlock	Yes
Dimensions tablet storage compartments	4 × Tablet compartements: 127 × 212 × 280 mm
Dimensions other storage compartments	1 x Storage compartment for Access Point: 202 × 41 × 213 mm 1 x Storage compartment for Apple TV: 102 × 41 × 90 mm
