DEQSTER Toploader Trolley 32

20-TT32

Overview

PRACTICAL. COMPACT. FANTASTIC FOR THE CLASSROOM. The DEQSTER Charging Cart TT32 – ergonomic, quiet in operation, and built for everyday school life. Designed with your health in mind: no bending over, no back pain. Universal charging made easy for iPads, tablets, laptops, and more.
With the TT32, device management is reimagined from the top down: this top-loader trolley, made of robust, powder-coated metal, is specifically designed for intensive use in schools. Thanks to its ergonomic design, it eliminates doors entirely – allowing all devices to be easily accessed from above. This saves space, time, and effort in the classroom.

Highlights

• Charge 32 devices simultaneously: iPads, tablets, or laptops up to 15.6", including those with DEQSTER Kids-Cases and keyboard sleeves.
• Top-loader design: Barrier-free removal with all-around access from above.
• Safe & intelligent: Protection against short circuits, overloads, and smooth power-up (soft start).
• Efficient & organized: Cable management via integrated side channels.
• Quiet & maintenance-free: No cycle charging required, active fans with automatic control.
• Included: 4 casters (2 with brakes), integrated lock with 4 keys.
