DEQSTER Hybrid Trolley 32

10-HT32

Overview

The HYBRID TROLLEY HT32 redefines sustainable charging for modern classrooms. Crafted from FSC-certified wood instead of metal, it combines stability, flexibility, and environmental awareness. With space for 32 devices and an intelligent charging system that prevents overcharging, it keeps iPads, tablets, and Chromebooks constantly ready for use. Quiet, secure, and mobile – the HT32 features lockable doors, smooth-rolling casters, and a top access flap for easy handling. Developed for efficient and sustainable learning environments.

Highlights

- Charges up to 32 devices
- FSC-certified wood construction
