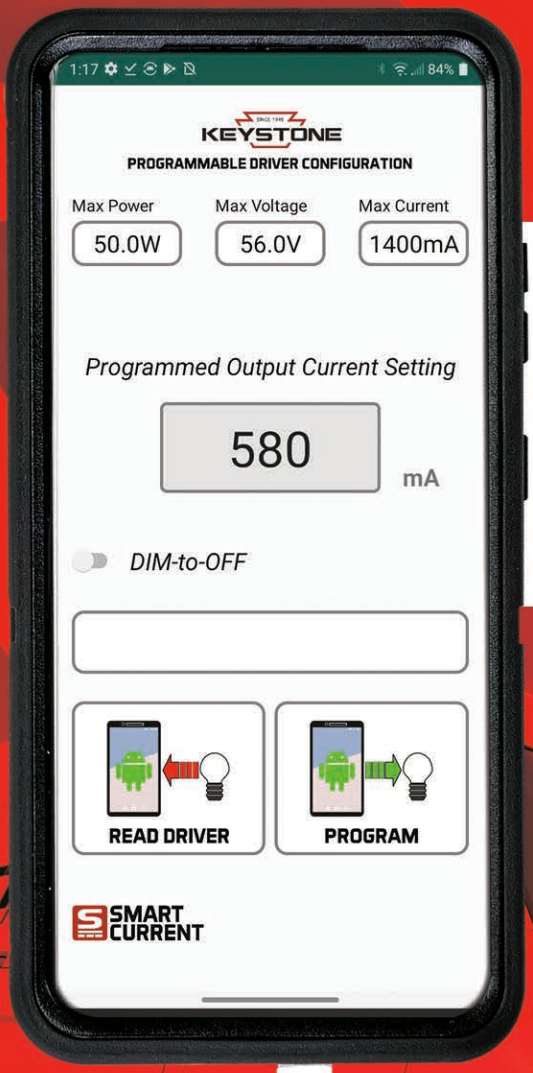
SMART CURRENT USB

Programmable LED Drivers



OCTOBER 2023

You've Got the Power

The Simplest Programmable Driver & App

VERSATILITY.
SmartCurrent is available in wattages from 12W-100W and multiple form factors, so you have a range of options to meet your preference.

ADJUSTABILITY.
SmartCurrent USB is adjustable in 10 milliamp increments, and the SmartCurrent USB app programs in seconds. It's like having 100 drivers in one.

SIMPLICITY.
The SmartCurrent app reads and updates your power output with just a couple taps. Whether you're on your truck or at the site, programming is just that easy.

PROGRAMMABLE LED DRIVERS
For Android Devices

Scan the code for all product details

PROGRAMMING
IS AS EASY AS...

1. **Open the SmartCurrent app and connect the driver.**
2. **Tap the Read Driver button.**
3. **Input your required current and tap the Program Driver button.**
