Location Detect Sensor

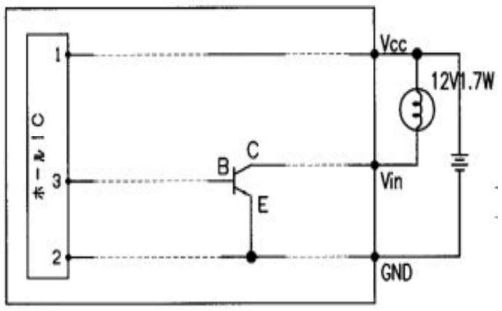
Features

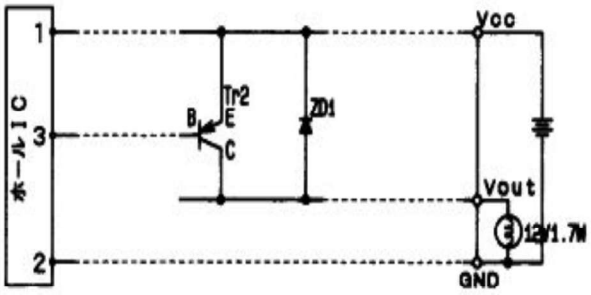
- Quick response time and avoids contact contamination due to non-contact structure with Hall IC.
- Increased layout flexibility with integrated connector.
- PNP or NPN configurations available.

Specifications

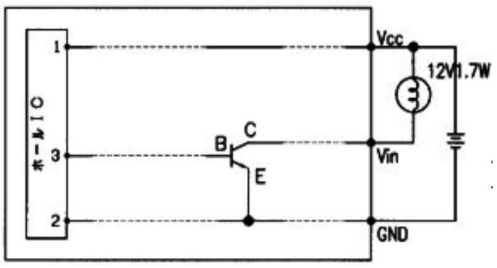
Circuit (4 Types)

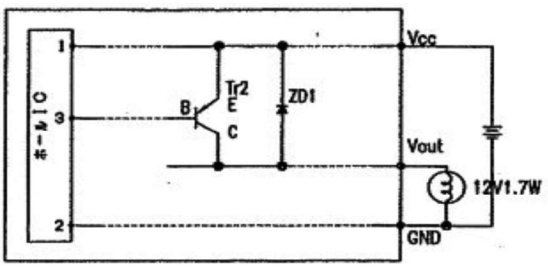
- Normal Close





- Normal Open





Location Detect Sensor

Specifications

1.Operating Voltage	DC6V～16V
2.Max Rated Current	200mA (@DC12V)
3.Operating Temperature	-30℃～+80℃
4.Insulation Resistance	1MΩ or more (500V Mega)
5.Ingress Protection	IP67
6.Vibration Durability	JIS 1601, Freq 50～250Hz, Acc 20G
7.EMI / EMC	JASO D001-94
