BLACK WIDOW® DUSTLESS SANDING PADS

SAND SMARTER, WITH FULL-SURFACE DUST EXTRACTION

STREAMLINE THE SANDING PROCESS

Unlike ordinary perforated sanding discs that extract dust only around their edges, **Black Widow® Dustless Sanding Pads** maintain congestion-free airflow across 100% of the sanding surface.

LESS BUILDUP, LESS CLEANUP

The superior dust filtration system enables each disc to last up to four times longer than ordinary perforated sanding pads, while offering universal compatibility with hook-and-loop sanding systems.

CONSISTENTLY FLAWLESS

With a consistent cut rate throughout the life of each pad, **Black Widow® Dustless Sanding Pads** are the most efficient route to a Level 5 finish, leaving behind flat, scratch-free walls with less downtime.
