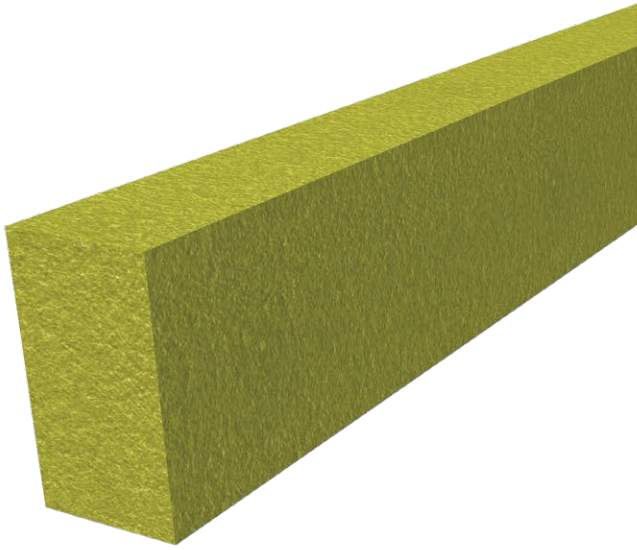
TRIM-TEX™
FIRE + SOUND SOLUTIONS

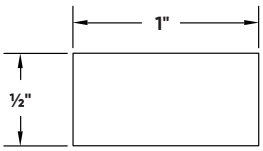


Smoke & Sound Stop

Smoke & Sound Stop is a compressible, rectangular length of foam, providing a flexible backing for smoke and sound abatement within interior building joints. Made from fabricated open-cell polyurethane, Smoke & Sound Stop is a simple, easily installed sound-dampening solution. Not recommended for wet areas.

Installation Guide

Technical Specs



Scan Below for Installation Video

Step 1:
Install drywall leaving a ½" gap between drywall and the ceiling/wall.

Step 2:
Install Smoke & Sound Stop in the gap, ensuring the product is compressed.

Step 3:
Install paper tape or Flat Deflection Bead over the Smoke & Sound Stop. Finish with drywall compound.
