- ✓ SAFECUT
- ✓ blue
- ✓ HPPE

CE CAT II

Product Description

This robust glove provides you optimal safety and control in various work situations. The glove reduces the risk of accidents, as it has a cut-resistant effect. The glove is knitted with 13G HPPE thread, is approved for food and categorized as level E, with F being the highest. You can read more about the levels of cut strength and protection against mechanical risk in test standard EN388.

EN388 EN 420

Specifications

Base name	Cut-resistant gloves
Brand	SafeCut
Size	11
Color	Blue
Features	Level E
Single or multiple use	Multiple use
Material	HPPE
Length/depth	270 mm
Width	120 mm
Certifications	CAT II, CE, Food contact materials
Product or test standards	EN 388, EN 420
Directives, regulations and acts	(EC) No 1935/2004, (EC) No 2023/2006, BEK nr 681 af 25/05/2020
Storage Instructions	Store dry, room temperature and no direct sunlight.

CE The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

The glass-fork-symbol guarantees that products live up to the demands stated in the European legislation for food contact materials. The symbol is not mandatory but advised on products used for food contact.

CAT II

Third-party type approval is required for all Category II personal protective equipment (PPE) products.

EN388

The standard specifies the requirements for protective gloves against mechanical risks.

EN 420

The standard specifies the requirements for protective gloves in relation to general requirements and test methods.
